Urban Homes Update – Suppliers and Contractors

I trust you and your families are safe and healthy at this time and are enjoying quality time together.

Following recent changes to the COVID-19 alert levels, Urban Homes has put in place a **COVID-19 Health and Safety Control Plan** which is effective immediately. This is attached for you.

Our COVID-19 Health and Safety Control Plan will operate across all our sites whilst operating under Alert Level 3 and subsequently, Alert Level 2.

There are new protocols that must be adhered to by all persons entering an Urban Homes construction site. This includes anyone working on site or delivering items to site.

Protocols, as defined in our COVID-19 Health and Safety Control Plan under Alert Level 3 and subsequently, Alert Level 2, address the following areas in detail:

- a. **Before arriving on any Urban Homes construction site.**
- b. **Entry to any Urban Homes construction site.**
- c. **Urban Homes site operations (including deliveries).**
- d. **Leaving Site**

Urban Homes is committed to prioritizing the health and safety of all our staff and contracted personnel working on our construction sites during this challenging time.

We have a **zero-tolerance** approach to any breaches of the guidelines as stated in our Health and Safety Control Plan.

Failure to adhere to these guidelines may result in IMMEDIATE removal from site.

If you have any questions relating to Health and Safety control plan requirements, please do not hesitate to contact your Project Manager to discuss.

Thank you for your understanding at this time.

Daniel Blok

Head of Construction
